

Speaker - Probus Blue Mountain Club

August 17, 2023

Electrified Vehicles

Guest Speaker Dean Lockhart

Third generation of the Lockhart family
in the automobile business in Collingwood

It is with pleasure that we will have Dean Lockhart owner of the local Toyota & Nissan dealerships speak to us about how he sees the future of the automobile as it relates to the electrification of the industry. The Lockhart family have been in the automotive business for three generations in C'wood. Dean's father, Roger was one of the early and active members of this Probus club.

We also encourage you to not only attend our August meeting but, if possible, reach out to any of our members you may know who have not been getting out to the meetings. All they may need to get more involved is a call or email for you or bring a friend who may have interest in joining the club.
